

### **3A Chau Kiu Fai, Kiyoteru**

#### **This app is a real game-changer for your studies!**

Students often come across hardships when doing homework or studying at home. These hardships often involve not understanding the questions or context struggling with question interpretation. That's where *Simplify* comes in! *Simplify* is a newly launched app aimed to aid students who need help with schoolwork.

#### **Get help from professionals**

*Simplify* is an application that allows students to contact experienced tutors online without needing the users to pay a dime. All well-trained tutors have over 8 years of tutoring and teaching experience. This service is available 24/7 and every single subject is covered on *Simplify*. The service is based in Finland to reduce ping and latency as they have the most European users. *Simplify* is also completely ad-free and isn't a "Freemium" service.

Getting support or help on *Simplify* is really a breeze! Simply click on the question mark icon at the bottom. After that, *Simplify* will connect you to a suitable tutor. You can scan documents and send digital copies right within the app. Locating a matching tutor takes less than a minute. After a question is raised and a document sent, the tutor will navigate and guide you through your work, and then you will easily get your work done!

#### **Free textbooks and worksheets**

*Simplify* also offers free textbooks and worksheets to help out students who have forgotten to bring theirs or those who have lost theirs. Students can now access textbooks and more educational materials just through an app on their phone! No more hassles of remembering what to bring home for work and revision!

#### **A built-in language centre**

With the rising prevalence of foreign language learning, *Simplify* offers lessons for Spanish, French, German and Italian for users ranging from amateurs to fluent speakers. Learning a foreign language has never been as simple. *Simplify* has made it handy across the globe.

**Install now!**

Contact me (Sophie So) at [whassup@gmail.com](mailto:whassup@gmail.com) for further enquiries. *Simplify* is completely free of charge and there is no reason not to use it. Start learning efficiently, only on *Simplify*. Launch time is limited. Don't miss out on this smart app!
